“Treating Utah County Residents since 1917”

Incredible Results with Custom LASIK

It was a dark night, but it didn't matter. Sandi Howe couldn't even see well with the lights on...without first finding her glasses. Like many Americans, Sandi was dependant on corrective eyewear. But thanks to the professionals at Excel Eye Center, Sandi is now free to see clearly.

“I am so very grateful to have 20/20 vision and to be lens free,” Sandi says, after receiving LASIK at Excel. “No more contacts, solutions, cleansing, irritations, or pain. No more groping in the dark for glasses.”

By now, you've heard all about LASIK. You know the FDA-approved procedure is fast, easy and above all—safe and extremely effective. You know LASIK is affordable...and competitive financing, flex spending and many other monetary options are available. You've heard how happy your friends, family members and co-workers are because they chose the freedom from glasses and contact lenses. So, what are *you* waiting for?

The professionals at Excel Eye Centers have been treating the people you know and love for more than 90 years. Now, Excel is one of the largest private ophthalmologic practices in the Western United States with full-service treatment centers in Provo, Orem, American Fork and Payson.

“Our medical staff has accumulated decades of experience, and has performed thousands of refractive procedures with incredible results,” says Dr. W. Scott Lohner, LASIK Specialist in Excel's Orem office. “We use the latest technology including the VISX Star 4 laser, which is the most advanced laser approved by the FDA. We also offer Custom LASIK—a procedure that actually corrects the unique imperfections in a person's sight and dramatically improves an individual's results.”

Over the years, nearly 100% of Excel's LASIK patients achieved visual acuity of 20/40 or better—and many reached a remarkable 20/20 vision or better. And for those who have chosen Custom LASIK, the results were even better.

Dr. Lohner is so confident in the procedure, he's actually received LASIK himself. He says he “loves the opportunity, as a surgeon, to help provide this same miracle to others.”

Excel patients regularly mention that LASIK was one of the best decisions they've ever made, says Dr. Randall N. Ellsworth, LASIK Specialist in Excel's Provo office. Sandi, who received her corrective eye surgery from Dr. Ellsworth, is just one of them.

To schedule a free LASIK consultation with an Excel LASIK Specialist, simply call the office nearest you. Provo: 1-877-YOUR-EYES, Orem: 1-866-837-4766, American Fork: 1-800-722-8754, Payson: 1-800-325-3127.
